The sheet may be applied to any use to which sheet lead may be applied, and peculiarly adapted to lining water tanks and reservoirs and also for water closet work.

Grateful for past favors, he hopes by strict attention to his business to merit the approbation of his customers. All work warranted not to fail until worn out.

METALLIC BURIAL CASES.

The subscriber has purchased the right to sell the Patent Metallic Burial Cases for the Island of Rhode Island; and he has just received a fine supply of the different sizes and patterns. These Cases will not preserve remains for all future time without some decay; but we do assert that remains may be kept in them for weeks without decomposition being observable, or without any offensive odor escaping. In grounds which are wet, they will be found doubly useful, and will answer all the purposes of vaults—which are so often made to shut out the water. If it is necessary at any time, even fifty years after interment, to remove remains, it can be done without any difficulty—for the Cases themselves will last as long as time itself.

NEWPORT,

BY CRANSTON & NORMAN,

127 THAMES STREET.

MONDAY MORNING, NOV. 17, 1851.

☞ All the locofoco papers are rejoicing over the results of the late State elections which have been held; and they are in extacies of delight because they have their own Governors in nearly all the States. They are entirely welcome to this kind of comfort. It is not to be expected that, in a Government like ours, any one party can always have the ascendancy, either in the Federal or State elections. Bad men sometimes come into power, and obnoxious and erroneous doctrines are occasionally carried into effect; but this is always permitted for wise purposes, in order to learn the people at large the value and blessing of being controlled by good men, and governed by sound and safe principles. Thus we are sometimes chastised by being afflicted with locofoco national and state administrations.

There will soon be a strong reaction in the political affairs of the country; and it will be precisely in the right season to secure a sound Whig President in 1852. This has always been the state of affairs the year previous to a Presidential election whenever our candidate has succeeded,—and we are now just as confident that the nominee of the Whig Convention, which is to be held next June, will be elected by the people, as we are that Millard Fillmore is this day President of the United States.

A very large proportion of the people of this country are Whigs, and among them is comprised the bulk of the talent, respectability and wealth of the nation. But the Whigs are not professed politicians, like the locofocos; very many Whigs never go to the polls until the Government has become so base and corrupt that business is palsied, and financial affairs are so crippled that merchants can no longer move,—then they arouse in their might and majesty, and place sound Whigs in power. As soon as the crisis is passed, and they have swept locofocoism from its stronghold, they relapse into their former political quiet, until a similar emergency again calls them forth. But is is not so with the locofocos; they are only for the emoluments of office. Whoever heard of a locofoco who did not want and would not take an office, be it great or small? Why such an instance would be as rare and unaccountable as the presence of an angel on earth,—and the one may as soon be expected as the other.

The locofocos work laboriously and incessantly; they never tire any more than the prince of darkness does,—and like him, they will never rest until all dominion is within their grasp, or until they are finally and forever subjugated to a purer and better power.

As soon as one election is over, they commence preparing for another; and although they may quarrel with fearful severity during the campaign, they almost invariably come up to the polls, to a man, and vote even for their bitterest personal and political enemy, provided he is the regular candidate of the party. They all work, and work in earnest, too; the leaders plan, and the rest execute,—and they do all this with a zeal worthy of a more honest and a better cause.—With such indomitable exertion, and with their usual false professions of regard for the "dear people,"—considering the natural apathy of many Whigs because they are not professed and working politicians, it is not strange that these political monsters should sometimes get into power. These and these alone are the means which ever put the reins of Government in the possession of the locofocos.

☞ The Supreme Court now in session in Providence, has been engaged for some days past in the trial of an action brought by G. L. Spencer and T. Pierce, Jr., Assignees of Horton & Brother, against G. W. Jackson, U. S. Marshal. One of the creditors of Horton & Brother attached their stock of goods after the assignment was made, and this action was brought by the Assignees for the recovery of the money for which the goods were sold by the Marshal.

The Court ruled that the assignment must be sustained, unless from the instrument itself, or the circumstances under which it was made, a design appeared to delay or defraud creditors; and that this could not be inferred from the fact that a release is provided for as there is also an opportunity for the creditors to secure a benefit under the assignment by simply proving their claims. The jury returned a verdict for the plaintiffs for $20,705 58, being 60 per cent. on the cost of the goods attached by the defendant, and the amount for which they were sold by him, with interest from the time of the attachment.

ORIGINAL ANECDOTE.

(*Concluded.*)

Here the loud laughter burst forth a third time. And after a little pause the Judge said, I must confess that I am not a bird of very fine feathers, but I assure you that I am a *Crane*, and a crane is often a very useful instrument: I saw a very good one in your kitchen this morning; and sometimes an instrument called a "crane," is of incalculable use, madam. Before she had time to reply, some of the gentlemen with whom she was acquainted assured her that she was talking with the presiding Judge.—Astonished and confounded, she attempted some excuse, and hastily asked his pardon for her rudeness.

The Judge had by this time, unobserved, taken from his pocket the beautiful shawl and folded it at full length one way, and in a narrow form the other, and it being of a very fine texture, appeared more like an elegant sash than like a valuable shawl. When he arose, with graceful dignity and with half a smile, advanced a few steps towards the landlady, saying, "it is not my province to pardon, but it is my business to judge! and I judge that you and I shall hereafter be friends—and I judge also that you will, without hesitation, receive this as a present *if not as a pawn.* So saying, he gently laid it over her shoulders, and across her arms, saying, "Take it madam, and do not attempt to return it, for it was purchased on purpose for a present for you." She hastily retired in confusion, hardly knowing what she did, and took with her the shawl worth twelve dollars instead of ten.

And here are three parties who had each two good things. The landlady had a good shawl and a good lesson to meditate upon—the gentlemen had a good dinner and a good joke to talk about—and the Judge had good intentions in the joke, and good will and ability to follow up the lesson given.

*Skippel is a measure of three pecks, used in Holland, instead of the English bushel; and the inhabitants of Poughkeepsie were mainly Low Dutch at that time.

TWO PER CENT A MONTH!—The following passage is from an article in the N. Y. Herald, on "Sunday in New York."

"If, during the week, the stranger should be surprised at the intense activity and insane eagerness to make money which prevails among our business men, let him look at their handsome wives and daughters as they sail out to church in full Sunday apparel, and he will wonder no longer. This vast, uninterrupted steam of twenty-five dollar bonnets, fifty-dollar silks, yard wide ribbons, embroidered shawls, velvet robes, and costly feathers, bespeak an unparalleled extravagance in the families of the industrious and prosperous, many who make up the great body of the population of every large city. The expensive and ostentatious style of this immense class —both in their dress and manner of living—is one of the most striking characteristics of our country and our age. No where else in the world can one tenth of so great a number of expensively (we do not say well) dressed women be seen in the same time or compass as on a fine Sunday morning. When we encountered this brilliant procession, last Sunday, remembered that money was worth 2 per cent, a month in Wall Street, we could not help roughly estimating the enormous interest the husbands and father of New York bestow on their wives and daughters.

GETTING ECONOMICAL.—The newspapers announce that the British Government will not fill the station of Minister, vacated at Washington by the departure of Mr. Bulwer, till some emergency shall arise requiring the presence of such a representative. This may be profitably imitated by our government. Why maintain all this diplomatic pomp and parade, at great expence, for no useful purpose, when, at this age, a British Minister can reach the United States in ten days? Of course our government is bound by usage only to maintain the same grade of Midisters at the Court of London. In addition to this, we should not be surprised to see England totally abolishing her embassy to France, now that the sub-marine telegraph is in operation between the two countries. She has already reduced the salary from 10,000 to £8,000 sterling.

JAPANESE AT WASHINGTON.—It is stated that the government will bring to Washington the coming winter the Japanese officers and crew, picked up at sea by an American vessel, and carried into San Francisco. They will be entertained at public expense, and shown our public works, and institutions, extent of navigation, commerce, &c. They are said to be intelligent, and will be able, when they are sent home, to give such an account of this country as may possibly tend to aid the efforts of the Government to obtain a commercial treaty with Japan. Commodore Shubrick was sent out in the U. S. frigate Susquehanna, to Japan, with a letter from the President to the Emperor, the object of which was to open a commercial intercourse. But the Susquehanna never got beyond Rio Janeiro, and is there likely to be long detained for repairs.

☞ The Emperor of Russia has recognized Emperor Soulouque of Hayti.

BY TELEGRAPH.

CHARLESTON Nov. 13th.

Mr. Toombs has been elected U. S. Senator from Georgia, without opposition. He addressed a large concourse of people at the State House, on the evening of election, and announced that the Constitutional Union party will adhere to its present isolated, independent organization and name. That it will not send delegates to, or be represented in, either the National Whig or Democratic Convention, next year; that it would wait until those Conventions have assembled, and set forth their principles and candidates, before the country, before determining on either side; that, as an indispensable condition for their support, the National Convention, whether Whig or Democratic, with which it coalesces, must adopt the Compromise platform, and that this condition being complied with, the Constitutional Union party will be free to unite with either the National Whig or the National Democratic party.

MILLARD FILLMORE.—The Ottumwa (Iowa) Courier has placed the name of Millard Fillmore at the head of its columns for President in 1852, and gives the following reasons for doing so:

First, that we believe him to be the strongest man in our party for that office; and

Second, that there is no man more deserving of the office or more competent to fill it.

We belive that he is the choice of a majority of the people of Iowa, and would carry a stronger vote for President than any man we know of that is now before the people for that office.

The Memphis (Tenn.) Eagle pays Mr. Fillmore the following handsome and well-merited tribute:

It is from those who are now, or have been, identified with the doctrines and practice of Rhettism and Disunionism *at the South*, or Abolitionism and Disunionism *at the north*, that we hear the bitterest and most insulting abuse of Mr. Fillmore and his Administration. They hate him with a hatred absolutely fiendish, because he stands a rock-firm, insuperable barrier to the accomplishment of their destructive schemes. But the moderate and conservative men of all parties, north and south, have almost to a man rendered him the just [illegible] faithful servant!" And, were Mr. Fillmore to die to-morrow, history, having made up the unerring verdict of posterity, would hereafter point to his brief career in the Presidential office as one of the most glorious in all our annals.

ADVANCE IN WHALEBONE.—The New Bedford Mercury says that there were sales in that city on Tuesday of 1300 barrels sperm oil at 125 cents per gallon; and 28,000 pounds whalebone at 45 cents per pound. The latter is an advance of 10 cents per pound since the recent disastrous tidings from the Arctic fleet.

GOOD SUGGESTION.—It is suggested in the Washington Republic that in all the churches where there shall be Divine services on Thanksgiving day, the 27th inst, collections be taken for the benefit of the poor.

Some of which gives the particulars of cases too frightful for general publication, where the patients had been almost eaten up with Scrofula, and where deemed incurable by physicians.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by—

And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain any mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail prices has been reduced to $1 50 per bottle, (containing three half pints) or three bottles for $4.

BEWARE OF IMPOSITION.

Swain's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA."

and having the name of JAMES SWAIM stamped on the sealing wax, and written on the lable covering the cork, and a splendid engraving for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copywright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentary, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

FRENCH LANGUAGE!

MR. LECHEN OUDIN, a native of Paris, and a graduate of the University of France, has the honor to inform the families and the schools of Newport, that on the 15th of October he will commence giving lessons in the French language, either at private houses, or at his residence, No. 17 Fair Street.

Mr. L. Oudin was engaged, in Paris, by the Rev. Dr. Choules, for the purpose of teaching French in his School. That situation enables him to put his terms at a quite reasonable rate— Besides, his resolution of making Newport his home is a guarantee of permanence in his lessons.

He will be happy to call immediately on any person who may address a line through the post office, to LECHEN OUDIN,
French Teacher.

SPRINGFIELD MUTUAL HEALTH INSURANCE COMPANY.

SPRINGFIELD, MASS.

GEO. H NORMAN, Agent.

THIS institution is conducted on the mutual principle, offering to all the parties insured an equal participation in the profits of the company.

It insures to men and female persons between the ages of fifteen and sixty years, a weekly income at the rate of 10 per cent, on the amount of money deposited; in case of disqualification for business by reason of sickness or accident. For instance a person paying $5 a year, insures to him $25 (or 100 per cent.) for every week's illness within that year. This benefit are independent of whatever dividends may annually accrue to the insured.

The rates of annual payments by the members are as follows:

$2 61 per Annum, draws	$2 00 per week,	
3 00 " "	3 00 "	"
4 00 " "	4 00 "	"

The main design of this company is to enable prudent and forecast persons of small means, to make provision while in health, by a trifling outlay, against the unexpected sufferings that inevitably invade the sick, in case of pecuniary privation and of ability to labor. A vast amount of human wretchedness has been prevented or mitigated, within the present generation, by the establishment, in Europe, of similar provident institutions; and within a short period, this system of Health Insurance has been introduced into our own country, with results, thus far, equally beneficial to all who avail of it contemplated—more especially to those who toil daily for their daily bread, and to whom any interruption by sickness becomes a serious and distressing calamity.

By this system, also, one person may insure the health of another—a parent that of a child, or a child that of a parent—an employer that of a workman, or of an apprentice, &c. Thus, those who are able, by a small immediate investment, may relieve themselves from the hazard of incurring heavy burdens, inflicted involuntarily by those who might otherwise become dependents upon them for continued care and support.

While the most humane and benevolent dispositions of mankind are subserved by every association of this description, its beneficiaries are exempted from being placed in the degraded condition of recipients of the bounty of others. For, by the contract into which they enter, they purchase and fairly own all the benefits which they may demand, as a matter of just and legal right; and, if it so please Providence that they escape the affliction against which they have measurably provided, the satisfactory reflection is left, that the price of their own immunity has been applied to the comfort and succor of their less fortunate fellow beings.

It is presumed that no extended argument can be required to recommend the objects of this Company to public consideration. A perusal of the Rules and Regulations adopted by the Directors, which may be had at my office, will afford an ample insight into the principles of the Institution, and of its modes of operation.

MEDICINES FOR THE PEOPLE!

DR. S. A. WEAVER'S CANKER AND SALT RHEUM SYRUP, CANKER CURE AND CERATE.

THESE preparations are scientific productions of a regularly educated physician (who is now extensively engaged in the practice of his profession.) They have become deservedly popular in all sections of the country, where they have been introduced, from the fact that they have never failed to effect a cure where they have been used according to direction.

THE CANKER AND SALT RHEUM SYRUP is an article differing entirely from Sarsaparilla or Dock Syrups, or any other preparation ever offered to the public. It can be positively relied on for the effectual cure of all Scrofulous Humors, Erysipelas, Salt Rheum, Canker in the Mouth, Stomach or Bowels, Female weaknesses, and all humors arising from an impure state of the blood. In a word it is a complete renovator, eradicating disease and restoring to healthy action every part of the system.

THE CERATE

In all cases of Erysipelas, and especially for Salt Rheum and Erysipelas, is a valuable accompaniment to the Syrup, as it will effectually destroy every vestige of Humor from the surface of the body which will be driven out by the use of the Syrup. It is one of the most valuable external applications ever known for Burns, Scalds, Scald Head, Old Sores, Piles, Barbers Itch, and all other eruptions on the skin. And far surpasses all other external applications.

THE CANKER CURE

Is the desideratum so long sought for the relief and cure of certain diseases which all other preparations have failed to relieve. It is warranted a positive cure for Nursing Sore Mouths, in those cases it has never failed. Thousands have tried it, and effectually also, for Canker in the Mouth, Stomach and Bowels, and obstinate dysentery it has effected cures after all other tried remedies had failed. For Ulcers and all diseases proceeding from canker or humor in the system this is useful and is a valuable accompaniment to the Syrup in all cases of Canker.

Neither of the above articles are genuine without the signature of S. A. WEAVER & Co., on the outside wrapper.

Manufactured at New London, Conn., by S. A. WEAVER & Co., the proprietors, to whom all orders must be addressed.

R. R. R. THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we would produce a medicine that would INSTANTLY STOP THE MOST SEVERE PANGS OF PAIN.

And speedily remove its cause.

We proposed to Hospitals, and all other Institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to introduce

RADWAY'S READY RELIEF,

for the [illegible] [illegible] of [illegible] and [illegible] its [illegible] and [illegible] [illegible] pain [illegible] the [illegible] We [illegible] that it would allay in a few minutes the most severe

RHEUMATIC PAINS,
DIARRHŒA, NEURALGIA, &c.
TIC DOLOREAUX,
CHILL FEVER.

That in a few minutes it would relieve the most severe pains in the bowels, that in fifteen minutes it would stop the [illegible] of diarrhœa, dysentery, and impart a genial warmth to every organ of the [illegible] of the body. That it would positively relieve the most severe and distressing pains of sick and nervous headache in fifteen minutes, and effectually cure this distressing complaint.

That it would in an instant mitigate the cruel pains of Neuralgic pains, and permanently cure this excruciating affection. That it would stop the most torturing toothache in a few seconds.

That it would remove all rheumatic pains in 67 minutes, and cure many Chronic cases of rheumatism in a few hours.

That it possessed miraculous soothing and relieving influence over all pains originating from Rheumatic, Neuralgic Nervous and Bilious complaints, and that the patient suffering the most excruciating tortures, would feel its soothing influence in a few minutes.

The world was startled at the publication of our discovery. The wise savans of Medical Science shook their heads in doubt. The sick and afflicted, however, heard that like other remedies it would be [illegible] on paper. But by practical experiments, thousands who were suffering with the most excruciating pains, at once determined to try it; the consequence was, that from almost every village, town and city, within 600 miles of New York we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it good; the most torturing pains were relieved; the weak and feeble victims of Rheumatism, who had been bedridden for years, were suddenly relieved from pain and restored to health. So with the sufferers of Neuralgic, Sick and Nervous Head Ache, Chill Fever, Diarrhœa, Cramps, Spasms, Cholera Morbus, and in fact all painful and distressing Acute Complaints, were suddenly relieved from their tortures and restored to health. Its fame spread from city to city, the people sounded its wonderful virtues far and wide, and ere the [illegible] of [illegible] its yearly course,

FIVE MILLION BOTTLES WERE SOLD

in every town in Maine, New Hampshire, Vermont, Rhode Island, Massachusetts, Connecticut, New York, and Ohio, in Michigan, Wisconsin, Illinois, Indiana, Missouri, the people have tested its virtues and pronounced it a safeguard against disease, and a quick antidote for pains. In New Jersey, Pennsylvania, Delaware, the Carolinas, Georgia, Alabama, and Louisiana, in every town in each State it [illegible] [illegible] [illegible] its efficacy.

TO THOSE WHO KNOW NOTHING OF IT.

If you are unacquainted with the merits of RADWAY'S READY RELIEF, and if you reside in any of the States mentioned above, we refer you to the druggists, to physicians, and to the people. Take a bottle of it to any skilful physician, let him test it, we will rely upon his opinion.

One drop is frequently cured the most excruciating Toothache.

Forty drops taken three times per day, will cure Sour Stomach.

Sixty drops taken four times per day, will cure Weakness and Debility.

Ten drops taken every ten minutes, will cure Diarrhœa.

Thirty drops has, in fifteen minutes, stopped the Sick Headache.

Sixty drops, taken every ten minutes, has cured Cramps, Spasms, &c.

Thirty drops has, in fifteen minutes, cured the Dolereux.

Sixty drops has, in twenty minutes, stopped the pains of Neuralgia.

Thirty drops, every ten minutes, has cured Chill Fever.

Thirty drops has, in five minutes cured Wind in the Stomach.

Thirty drops has, in fifteen minutes, cured Cholera Morbus.

One application externally has stopped the [illegible] pain of Rheumatic affection, and cured Sprains, Strains and Sprains.

Three applications has cured the Salt Rheum.

Three applications has cured the Flesh and Tetter.

Three applications has cured Pimples and Blotches.

A CARD.

DOCT. F. GOURAUD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France,

SURGEON OCULIST,

DENTIST,

AND PROFESSOR OF CHEMISTRY: has the honor to apprise the Ladies and Gentlemen of Newport and vicinity; and, in general his old acquaintances and former patients, for this sixteen years past, that he has begun anew his former practice of Medicine and Surgery, at his Dwelling, No. 19 Bridge Street; where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warrantice, given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be met with, under regard to their trust, either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronic, inflammatories or accidental, which afflict the Eyes and the Sight, either in young subjects or older ones: the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABICS SUBJECTS, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the farthest, to one minute's anxiety; and, no other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an evidence, the only sight or inspection of the instruments used in performing the operation, will be all sufficient to induce a Strabic, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabism, in the city of New York, upon 21 Strabics subjects, with an indisputable success, after having operated upon upwards of 390 in France.

june23. F. GOURAUD.

Professor Alexander C. Barry's Tricopherous, or Medicated Compound, for restoring, preserving, and beautifying hair, eradicating scurf and dandruff, and curing diseases of the skin, glands and muscles, stings, cuts, bruises, sprains, &c.,—In order to convince the public of the efficacy of any curative preparation, in this thinking and reflective age, it is necessary to explain the philosophy of its operation. The process by which Professor Barry's Tricopherous produces such extraordinary results, cannot be understood, without a brief notice of the structure and uses of the delicate substances to which it is applied, and in the condition of which it accomplishes the most salutary changes. The connection between the hair and the skin is so close, that the one may almost be deemed a continuation of the other; and hence whatever renovates, restores, and nourishes the hair, must of necessity have a healthful influence upon the sensitive membrane in which its roots are fixed. The skin, that wonderful envelope, in which the sense of touch resides, consists of three layers; the epidermis, or cuticle, a semi-opaque, or almost insensible film; the rete mucosum, which is a spongy membrane, reticulated with nerves and blood vessels, and forms a sort of shield to the exquisitely sensitive true skin; and the true skin itself, which constitutes the third layer of the triple envelope. In this tough, flexible, and elastic integument, are located the nerves, blood-vessels, &c., which supply sustenance to the hair, and in the derangement of which diseases of the skin originate. The vessels of the true skin supply the sacs containing the roots of the hair with the moisture which sustains the fibres, and the same causes which affect the health of the hair, also affect the health of the skin. It acts through the skin upon the hair, stimulating the inert vessels, opening the pores, imparting activity to the circulation, awakening from their lethargy all the vegetative functions which give life, vigor, and beauty to the fibres, extirpating every particle of scurf and dandruff, and soon clothing even the bald or half deserted head with a thick, glossy, silky, and elastic covering. But this is only one of the uses of Professor Barry's Tricopherous. The same properties which restore vital and vegetative power to the skin of the head, are equally beneficial in all cutaneous diseases or superficial injuries. For cuts, burns, bites of insects, sprains, erysipelas, blotches, pimples, scabies, ringworm, rashes, scrofula, prickly heat, chilblains, chapped hands, rheumatism, burns, scalds, bruises, redness of the skin, and in short, all the troublesome and painful external diseases and injuries which are so common in families, and which nothing but external remedies can remove, the Tricopherous will be found a speedy, safe and unfailing cure. By virtue of its double claim as a renovator and beautifier of nature's choicest ornament, and a potent and invaluable remedial agent, it is entitled to a place on every toilet and in every medicine chest. Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, N. Y., and by the principal merchants and druggists throughout the United States and R. J. TAYLOR, Newport, and J. BALCH & SON Providence. may1.

PHALON'S CHEMICAL HAIR INVIGORATOR.

THE enormous progressive increase in the sale of this unrivalled article for renewing, beautifying and perpetuating the growth of the hair, is a proof the common sense and experience of a sagacious public will ensure the triumph of a genuine preparation, which sustains by its results the inventor's guarantee over all spurious nostrums, however they may be bolstered by fulsome puffs, or propped up by manufactured statements.—Where the hair has fallen off, it will, in all cases where the vitality of the roots has not been destroyed, produce a full growth of fibres, as elastic and glossy as those with which the denuded scalp was originally clothed. Where the hair is loosening, and thinning, it will refix the yielding roots and restore the growth on the spots which have become bald. If the hair is harsh and dry, the Chemical Invigorator will render it soft, flexible, and lustrous; for it penetrates to the sacks in which the roots of the hair terminate, and is thence conveyed through each tubular fibre, lubricating the dry substance, and imparting vigor, beauty, and vegetative power to the whole mass of filaments. In cases where the head has become bald, or partially so, by disease, whether local or general, the Chemical Hair Invigorator will infallibly reproduce the lost covering of the scalp in its original profusion and beauty. It has the property of darkening the hair, as well as promoting its growth, elasticity and lustre. The lady or gentleman who uses it regularly, according to the directions, need not fear that age will bring, so far as they are concerned, its usual concomitants, grey hairs—not, at least, until years after the period when they ordinary make their appearance. In short—by young and old, by both sexes and all classes—Phalon's Chemical Hair Invigorator will be found not only the very best, but the only preparation by which the hair can be preserved in all its natural luxuriance, and endowed with all the additional beauty and perfection which it is the province of art to bestow.

HAIR DYING.

Phalon's Magic Hair Dye, to color the hair or whiskers the moment it is applied without injury to the hair or skin. It can be washed immediately without disturbing the color, and has no bad odor. It is applied, or sold at GORTON ANDERSON'S Barbering and Hair Cutting Emporium, 163 Thames Street. jun1. 1y

BLISS' JENNY LIND HOT AIR COOKING RANGE.

IN presenting this Range to the public, the subscriber would call attention to its merits. He has been well convinced from his own observations that the public are in want of a Range with such improvements as will render it more perfect for all purposes of domestic utility and economy, than any now in the market. In the article which he now offers to the public for examination, he has (if he can place any reliance upon the assurance of experienced dealers in Ranges and Stoves, his customers and his own experience and observations) been successfully beyond his most sanguine expectations. The Oven is so constructed as to secure the certainty of thorough baking the bottom of all articles proper to be cooked in an oven. It is unnecessary to say to those who have used ranges, that no previous pattern has been free from defect in this particular.

All parts of this Range is double the usual thickness.

It has been pronounced by competent judges, the most beautiful and perfect in its appearance, of any Cooking Range of this country, with some advantages over many ranges that are made. I would call your attention

1st, To its general beauty and great strength of castings. Also, the quality of iron and the care and skill with which they are mounted. Also, notice the top which is so constructed as to prevent the least possible chance of breaking or burning out.

2d, The form of the fire chamber—a cylinder lined with soap-stone, or fire-brick, and known to be the best form of fire chamber in which to burn coal.

3d, Notice the front of the range closes tight, with a register in the ash-door, to give draft, which when closed makes the range perfectly air tight. Also, a new arrangement for dropping the grate from the outside, so that no dust can escape in the room.

4th, The simplicity of the arrangement; it having but one Damper, which manages the whole. Also, the convenience for cleaning the flues, and a convenient place to put the coal scuttle and a very large oven, of capacity enough to bake twelve pies. Also, a bath boiler, which can be heated by a side or back flue or a water back, and a new and improved hot-air fixture which will heat a room from 12 to fifteen feet square, with the same fire that is used in cooking. There are five sizes of these Ranges, all of them can be set with double ovens either No. 1, 2, 3 or 4, at the option of the purchaser.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.

Safety—Stability—Economy.

THIS long established and well known company having organised a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations for the payment of losses upon life assurance only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies, and as low as is consistent with ultimate safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those vexatious contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 10, 45, 50, 55, or 60, at his option; in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

JOHN H. SMITH'S RENOVATING OINTMENT AND HORSE RENOVATING POWDERS.—The author of our existence has caused to grow spontaneously, throughout the world, such vegetable properties as will at once cure, when properly applied, all curable diseases. The proprietor of these truly valuable Medicines might fill a volume with Certificates and Testimonials in favor of his articles; but, considering such puffs wholly useless, since they are so readily manufactured, and made use of to such an extent to palm off some useless trash upon the public, I shall, therefore, state at once, the various diseases that can be speedily cured by these Invaluable Horse Renovating Powders, viz:—Glanders, Hidebound, and Horse Distemper. It also carries off all gross humors, and purifies the blood. It is also a safe and certain cure for the HEAVES; it will also cleanse, at once, the stomach and maw from bots, worms, &c., and again restore the stomach and bowels to healthy action.

SMITH'S RENOVATING OINTMENT is an invaluable remedy for horses, in the cure of the following diseases: Fresh Wounds, Galls of all kinds, Sprains, Bruises, Ringbones, Poll Evil, Wind Galls, Sprains, Sweeny, Fistula, Strains, Lameness, Foundered Feet, Cracks, and Scratches.

The above articles are to be had in most of the Cities and principal Villages throughout the United States, and the Canadas.

Price, 25 cents per box for the Ointment; 50 cents for the Horse Renovating Powders.

DALLEY'S MAGICAL PAIN EXTRACTOR.

The Original and only genuine—in a new envelope and much enlarged boxes.

THIS only never failing and sovereign remedy for burns, scalds, piles, salt rheum, cuts, wounds, bruises, chilblains, swellings, old inveterate sores, inflammatory rheumatism, sore and inflamed eyes, and all cutaneous and inflammatory diseases, is extensively counterfeited in the old wrapper!! Avoid it as you would poison—for, to use it, is as dangerous!

I refer to my printed Pamphlets for testimonials of cures performed, and for the truth of every word of which I hold myself responsible. Were I to embody all the testimonials I have received, it would fill a quarto volume of 1000 pages.

A CHALLENGE TO THE WORLD!

I will forfeit $10,000! to be paid to any charitable institution, or institutions, if ANY or ALL other articles that flood the market, as Salves, Liquids, or so called Exterminators, Extractors, Killers, (an appropriate name for some,) can perform such a cure, in all its particulars, as is related in my circulars, as the

HAGUE STREET EXPLOSION CASE!!

And I will pay to any party $1,000 if he can prove that there is any thing in that statement not STRICTLY TRUE! I deem it useless to say more in reference to the

GENUINE DALLEY SALVE!

CAUTION!

void fraud, and you gain near 50 per cent.—Shun the poisonous counterfeits in the old wrapper, and buy Dalley's Extractor only in the new envelope and the large boxes.

MARK—The emblems on the new wrapper—Triangle, Serpent, Sun, Dove, Lion and Eagle.

MIND—The new wrapper—the large boxes—and the genuine article.

THE TEST.

DALLEY'S GENUINE SALVE, if applied in any case of Burns, Scalds, or Inflammation, will afford almost instantaneous relief! It cools when applied, checks all inflammation instantly, and quickly reduces it. Its effects are so soothing, that in cases of the severest burns and scalds, [*See Hague Street Explosion Case*,] and where the sufferer is in the most excruciating pain, it will entirely ease him in a few minutes, so that in about a quarter of an hour from its application, he will enjoy sleep and repose.

The Counterfeit Salves irritate when applied, and increase the pain and inflammation.

JENNY LIND STABLE.

ATTACHED TO THE UNITED STATES HOTEL.

THE subscriber respectfully informs his friends and the public that he has leased this large and commodious stable in the rear of the United States Hotel, on Pelham street, the work of which house he will do, and purchased all the stock of the same. He has also added thereto, and is now prepared to furnish splendid carriages and horses for pleasure parties, saddle-horses of a superior quality, barouches, carryalls, buggy-waggons, stage coaches, cabs, &c., which will be furnished at the shortest notice and on the most reasonable terms. He will also be prepared at all times to carry passengers to and from the boats.

He has accommodations to board 15 horses for the season, and will give them as good stall, fodder, &c., as can be afforded at any other stable in town. All orders left at 181 Thames street, at the United States Hotel, or at the stable, will be punctually attended to.

Having invested a large amount in this establishment, and being determined to devote himself untiringly to his business, he asks for a share of the public patronage.

P. S. The beautiful carriage, drawn by the famous buckskin horses, which conveyed Jenny Lind from the Caroniece, on her arrival here, can be had at any time, by applying as above.
